## NewOrg Management System: Human Services Data Management

NewOrg Management System for human services organizations is an outcome and case management solution that helps case management staff, managers and executive teams drive progress toward health and social services outcomes.

**Client Information:** Whether you are looking to improve parenting skills and children's well-being, prevent risky behaviors, help people recover from trauma, or achieve other outcomes, NewOrg can help you serve your clients better. NewOrg provides real-time, client-level data access that assists program management teams in delivering services – assessments, case planning, and referrals can be centrally stored and reviewed, identifying progress towards your clients outcomes.

**Program Management and Design:** At the program-level, you can ensure that the services designed by all your staff and in all your locations are provided and recorded accurately over time. This in turn allows your service delivery to adjust as needed and your programs to more effectively deliver on your mission.

**Meeting Funding and Compliance Needs:** NewOrg will allow for efficient aggregation of data, and meeting the compliance and reporting needs of your organization more efficiently and accurately. Share your data with all stakeholders, impress them with your success, and secure their long-term support. We support family services, community services and children's services organizations with funding from a variety of federal, state and private funders.

NewOrg meets the needs of nonprofits, and government groups providing community services. We work with you in addressing your current needs, and as your organization grows and evolves to have more complex data requirement, you can— on your own— modify the system to meet them or access our expert consultants for support.
